

This workshop is designed to demonstrate quick and easy techniques for extending shelf life on general circulating materials. Prevention is the key, but we will be addressing specific, common repairs: tipping in loose pages, broken spines, torn header caps, ripped and torn pages.

Each participant is asked to bring:

1. two paperback books, preferably new or new-like, to demonstrate covering techniques,
2. a hardbound book with a book jacket to demonstrate application of book jacket covers,
3. a stapled book or magazine,
4. a book that needs to have a loose page tipped in
5. one hardbound book that needs repair.
6. a pair of scissors.

Each participant will be provided with a free sample packet of materials.
